Exemplary illustration
The Type 4.5 has four instead of six LED modules

LED recessed light suitable for all common ceiling systems. Frame coated in ceiling colour.

Design with unique LED reflector system and highly efficient all-round glare-free wide-beam light technology (UGR<19). Specially designed for use with high ceilings and/or higher light intensities.

The narrow installed height of 55 mm saves a lot of space.

Seamless closed-cell seal between housing and frame.
Inspection by opening retaining knob.
