

## MUTE+ board S40

Sound absorber made of polyester, square, 40 mm

The classic among sound absorbers: with MUTE+ board, you receive sound absorbers made of high-quality polyester. This not only improves the acoustics in your rooms, but also provides a sustainable solution. The sound absorber is available in different colours - but is 100 % recyclable in every version. If you would like to customise your sound absorber, other dimensions, geometries and other designs such as straight or wavelike baffles, free-form shapes, etc. can be realised at any time.

- free of mineral fibre, suitable for people suffering from allergies
- tested for harmful substances according to Oeko-Text® standard 100
- 100 % recyclable
- installation on ceilings or partitions in interiors
- sound absorption class: B and A
- 90° corners, alternatively rounded corners
- individual sizes and shapes possible

Notice: The representation of colours and structures is not binding, as brightness and contrast may vary depending on the monitor and print. Differences are therefore possible. Due to different production batches, colour differences of the absorbers can inevitably occur. The batch discrepancy is not a reason for complaint.
