

Areas of application

- Office and conference rooms
- Industrial and factory areas
- Training and research facilities

Construction options

- Different thicknesses and insulating materials according to performance
- in front of existing wall or system partition

Combinable with

- Lindner Life Pure 620
- Lindner Life Nature

Description of the system

The hung absorber element captivates by its modern appearance and functions coincidentally as a privacy shield. It offers numerous possibilities to design your room individually due to a large selection of surface coatings and hole patterns. This way, a perfect adaption of the reverberation time according to the requirement, in order to create a comfortable acoustic atmosphere, is possible

	Dimensions (depending on material used)	
	Element width	Standard up to 1250 mm
	Element height	Standard up to 3000 mm
	Absorber thickness	42 / 62 / 82 and 102 mm
	Technical Data	
	Weight	approx. 7 - 21 kg/m ²
	Sound absorption	
	DIN EN ISO 11654	up to $\alpha_w = 1,0$
	Green Building	
	Product characteristics	DGNB- / LEED- compliant

Applicable standards

- DIN EN ISO 11654
